

NUTRITION & PROTEIN INGREDIENTS

Catalynt Solutions delivers high-purity ingredients tailored for nutrition, supplement, and personal care products. With local stocking capabilities and a curated portfolio of vitamins, emulsifiers, stabilizers, and specialty oils, we help you formulate with confidence and agility.

Acidulants & pH Modifiers

- Citric Acid – flavoring and pH adjustment
- Ascorbic Acid – antioxidant, Vitamin C source
- Lactic Acid – flavor/pH and probiotic support
- Tartaric Acid / L-Tartaric Acid – pH modifier and stabilizer
- Phosphoric Acid – acidulant in flavored beverages
- Fumaric Acid – flavor and acidity control

Lipids, Oils, and Fats

- Medium Chain Triglyceride (MCT) – energy, metabolism
- Sunflower Oil / Canola Oil / Rice Oil – used in powder blends and tablets
- Shea Butter / Mango Butter / Cocoa Butter – in personal care or meal bars
- Palmitic Acid – component of emulsifiers
- Rumen Bypass Fat – not likely used in Herbalife (typically for animal feed)

Preservatives / Shelf-Life Extenders

- Sodium Benzoate – preservative for beverages
- Potassium Citrate / Sodium Citrate – pH regulator, flavor buffering
- Sodium Bicarbonate – leavening and acidity buffer
- Benzoic Acid – preservative
- Erythorbic Acid – antioxidant

Protein / Amino Acid-Related

- Creatine Monohydrate – found in fitness/strength supplements
- L-Aspartic Acid – amino acid in protein supplements

Thickeners, Emulsifiers, & Stabilizers

- Lecithin – Liquid / Dry – emulsifier and nutritional lipid
- Xanthan Gum – thickener and stabilizer
- Cellulose – CMC / HEC – texture and stabilizing
- Glyceryl Monostearate – emulsifier
- Glycerine – humectant and sweetener base
- Sorbitol – Dry – humectant and sugar-free sweetener
- Magnesium Chloride Hexahydrate – stabilizer
- Tricalcium Phosphate – anticaking, calcium source

Salts, Minerals & Electrolytes

- Sodium Chloride (Salt) – electrolyte and flavor enhancer
- Potassium Chloride / Potassium Sulphate – electrolyte balance
- Calcium Carbonate / Calcium Chloride / Tricalcium Phosphate – calcium sources
- Zinc Sulfate Heptahydrate – mineral supplement

Vitamins & Actives

- Ascorbic Acid – Vitamin C
- Vitamin B3 (Niacin), B6 (Pyridoxine), B12 (Cobalamin) – core Herbalife nutrients
- Vitamin E / Vitamin E Acetate – antioxidant and skin support
- Phosphatidylcholine (PC) – part of lecithin, cognitive and metabolic support

NUTRITION & PROTEIN

FEATURED PRODUCT:

Lecithins

As a representative of Giiava, a world-class, large scale manufacturer of Lecithin; Catalynt imports and stocks various premium quality Lecithin grades in warehouses across the United States. By working directly with Giiava we are able to provide competitive sourcing solutions.

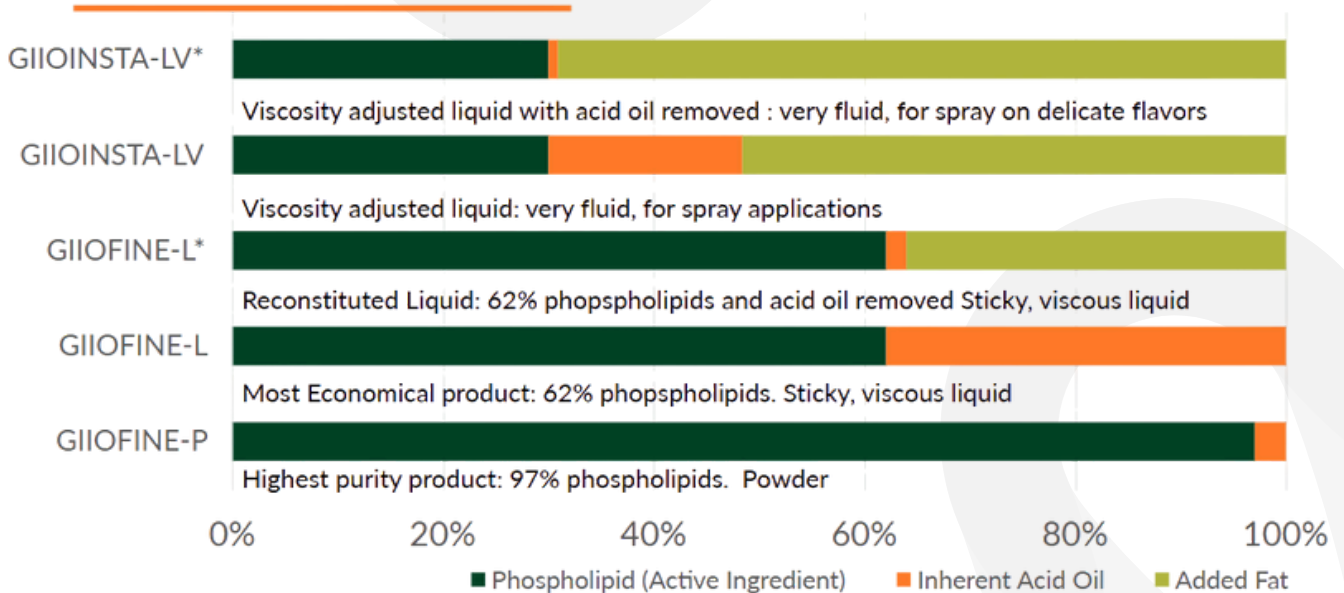

Specialty Blends and Custom Product Development Available

We work with Giiava to create solutions to improve your taste, texture, and performance for your specific needs.

Source/Origin Available

Standard Soy, PCR -ive Soy, Non GMO (IP) Soy, Sunflower, Rapeseed (Canola), Rice Bran

Composition of different Grades of Lecithin

Sourcing & Quality Assurance

Sourced from trusted partners across the globe, our products are backed by key certifications including FSSC 22000, Non-GMO, Allergen, Kosher, and Halal. Comprehensive documentation—such as TDS, SDS, HACCP, GMP, Nutritional Values, Prop 65, and more—is available upon request to support your compliance needs.

Inventory & Logistics

Consistent supply and strategic regional and local product stocking locations with flexible shipping to customer-specific destinations available on request.
