## Lab Services

Catalynt is one of the largest certified woman-owned custom manufacturing, packaging, and lab services providers and suppliers of raw materials and ingredients in North America.

We have knowledge across various industries and regulatory experience focused on providing our customers with unsurpassed service and value. We treat all customers and projects with the highest level of discretion and confidentiality, consistent with their often proprietary requirements.

**Because your work is important to the world, and that's important to us.**

### OUR LAB SYSTEM

Powders, Liquids, Flammables and Corrosives ...we can do it all!

Full-time chemist on site to run quality control and formula adjustments using a variety of specialty equipment for various industries and testing needs.

Trusted partner, dedicated to protecting your formulations and providing guidance and custom fit solutions allowing you to broaden your range of capabilities and increase the variety of products your business can offer.

### PROPRIETARY R&D

Ability to aid in the development & manufacturing of formulations and retain samples.

A wide variety of "Starter" formulations for aiding in new development

Research and development of new products, analysis of new raw materials, complete evaluation of new formulations, and reformulating to improve existing products – all under strict proprietary control.

### FLEXIBLE SERVICES

ISO-9001 certified facility, NF/NSF capabilities, cGMP compliant & Di-Water system

Gas-Chromatograph (GC) & Purity Testing  
Moisture Analysis  
Titrations Testing  
Color Analysis
