## Manufacturing

Catalynt is one of the largest certified woman-owned custom manufacturing, packaging, and lab services providers and suppliers of raw materials and ingredients in North America.

As a high quality custom-manufacturer, we combine technological expertise with strong production capabilities to offer our customers a wide range of opportunities to expand and improve their business.

We treat all our business partners' information with the highest level of discretion and respect.

### CUSTOM PRODUCTION, PACKING, & LABELING

Powders, Liquids, Flammables, and Corrosives... We can do it all!

Dedicated and specialty equipment for various industries.

Ability to create small batches and developmental samples.

Wide range of finished packaging sizes with filling lines for small package containers. Ability to handle bags and supersacks.

Range of labeling options from in-house label printing to custom multi-label application.

### QUALITY CONTROL & DEVELOPMENT

Full-time chemists on-site with quality control and research & development labs.

Full-service laboratory testing, sample retention, and developmental formulating.

Ability to aid in the development & manufacturing of formulations.

Trusted partner, dedicated to protecting your formulations and providing guidance and custom fit solutions.

### TECHNICAL EXPERTISE & CONSULTING

Full-service sourcing solutions for a diverse range of raw materials and components.

Ability to offer off-sets, drop-ins, and alternative materials.

Decrease overall costs by improving efficiency and rejection rates and providing your company with technical expertise.

Broaden your range of capabilities and increase the variety of products your business can offer.

ISO-9001 certified facility, NF/NSF capabilities, cGMP compliant.
